

ABOUT US

Our History

Oneglobal Development Inc. was established in 2008 with the primary business of designing and building residential and commercial areas. With the growing need for safe, enjoyable and interactive recreational areas in cities and provinces, Oneglobal partnered with premier international manufacturers of play equipment to their exclusive distributor. With just a few years in the business of supplying customized equipment and services for residences, parks, community playgrounds and resorts, Oneglobal has become one of the leaders in the industry.

We recognize the importance of play to the optimal development of a child. We offer a wide range of attractive, durable and fun integrated play systems and individual play items designed to develop children's imagination, motor skills, emotional and social well being.

Our play systems take into consideration the age, height and varied interests of children. The various realistic themes and designs attract children to play and interact with other children. Extensive research has been conducted to ensure that each of our play equipment is child-friendly and passes the strictest safety standards. In addition, the materials used and the processes employed in manufacturing our products are environment-friendly. Invest in a play system and help your child discover the world through play.

Our Mission

To provide safe, durable, eye-catching and high quality recreational equipment and services for the construction of playgrounds, parks and resorts for individuals, communities, private and public corporations.

Our Vision

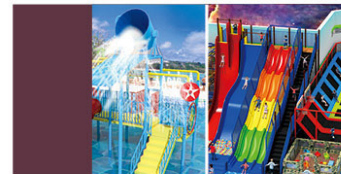

To be the Philippines' leading builder of enjoyable recreational areas.
